DOCUMENT RESUME

ED 263 222 UD 023 971

TITLE	School Profiles 1980-1981. New York City Public Schools.
INSTITUTION	New York City Board of Education, N.Y.
PUB DATE	Dec 82
NOTE	1,358p.; Tables in small print throughout. For related document, see UD 023 970.
PUB TYPE	Statistical Data (110) -- Reports - Descriptive (141)
EDRS PRICE	MF11/PC55 Plus Postage.
DESCRIPTORS	*Academic Achievement; Admission (School); Attendance Patterns; Class Size; Elementary Secondary Education; Enrollment; Ethnic Distribution; Expenditure per Student; Lunch Programs; Mathematics Achievement; *Public Schools; Reading Tests; *School Buildings; School District Spending; *School Statistics; Scores; Special Education; *Student Characteristics; Student Promotion; *Teachers; Teacher Student Ratio
IDENTIFIERS	*New York (New York)

ABSTRACT

This document presents a statistical overview of each of the elementary, intermediate, junior high, special education, and high schools in the New York City Public School System. The publication contains a wide variety of 1980-81 school year data describing the individual school plant, pupil characteristics and achievement levels, and staff positions and costs. In addition to presenting information on individual schools, it also provides summaries of data for the schools city wide, by borough, and by school district. The Office of Student Information Services generated the data on physical facilities, pupil enrollment, ethnic composition, class size, promotions, ESEA Title I status, free lunch eligibility, norm aid to families with dependent children, attendance, admissions and departures, and standardized achievement test scores in reading and mathematics. Data relating to graduates, average class size, and number of instructional periods in the high schools came from the Division of High Schools. Computer systems developed by the Office of Student Information Services generated data on school staff positions and costs. (Author/RDN)

DECEMBER 1982

FOREWORD

The purpose of the SCHOOL PROFILES is to provide information and data to support the school system's educational goals for all students in the New York City public schools.

The New York City SCHOOL PROFILES provides detailed information about our public schools to both professional staff and the public: parents, interested citizens, organizations, and other members of the educational community. A school is a complex organization and efforts to characterize schools by the use of quantitative data are never complete. The factors selected for inclusion in the SCHOOL PROFILES are thought to be most indicative of the total school environment and of greatest concern to the educational community. Some factors, such as average daily register and pupil attendance data, are based on a year's experience. Other variables, such as ethnic composition of the student population and pupil/teacher ratio, describe the schools at a point in time.

A number of the major problems encountered in urban education today deal with the management of a highly complex system to insure the effective support and delivery of instruction. With stringent budgets, increasing expectations, and a growing population of disadvantaged and mobile students, urban school personnel daily face the need for accurate and timely information on instructional activities and supportive services. Information on educational resources, curriculum and student achievement can provide a basis for upgrading and developing new instructional programs.

Frank J. Macchiarola
Chancellor

DATA SOURCES AND DEFINITIONS

The SCHOOL PROFILES present a statistical overview of each of the elementary, intermediate, junior high, special education and high schools in the New York City Public School System. The publication contains a wide variety of 1980-1981 school year data describing the individual school plant, pupil characteristics and achievement levels, and staff positions and costs. In addition to presenting information on individual schools, it also provides summaries of data as shown in the Table of Contents.

This volume was prepared by the Office of Student Information Services which generated the data on physical facilities, pupil enrollment, ethnic composition, class size, promotions, ESEA Title I status, free lunch eligibility, norm aid to families with dependent children, attendance, admissions and departures and standardized achievement test scores in reading and mathematics. Data relating to graduates, average class size, and number of instructional periods in the high schools were obtained from the Division of High Schools. School staff position and cost data were generated by computer systems developed by the Office of Student Information Services.

Production of the 1980-1981 SCHOOL PROFILES was under the direction of Thomas Gross. The data for SCHOOL PROFILES were edited by the staff of the Educational Management Information Unit, namely Leon Brazel, with the assistance of Florence Adler. Updated information on school capacity, ESEA Title I status, free lunch eligibles, and Norm AFDC was provided by Marvin Jacobs and Melvin Nelson. John Falletta supplied the data on Reading and Mathematics scores. Samuel Schoss generated the computer programs and output. April Singer produced the cover design and the maps. Marcella Davis provided typing assistance.

PHYSICAL FACILITY DATA

The following physical facility data are included for each school:

LEVEL

Level defines a category of schools having similar grades or types of pupils. For the SCHOOL PROFILES the following levels have been used:

Community School Districts 1 through 33
  Elementary Schools
  Junior High/Intermediate Schools

Special Education District 75:
  School for the Deaf
  School for Language and Hearing Impaired Children
  Hospital Schools
  Occupational Training Centers
  Schools for Career Development
  Schools for Pregnant Girls
  Day Schools for the Education of the Emotionally Handicapped
  Institutions for the Emotionally Handicapped
  Other Special Education Centers

High School District 78
  Academic-Comprehensive High Schools
  Vocational-Technical High Schools
  Independent Alternative High Schools
  High School Program for Pregnant Girls
  High School Outreach Program

TITLE I STATUS

A school is eligible to receive additional educational services under Title I of the Federal Elementary and Secondary Education Act (ESEA) if its percentage of low-income pupils is equal to or greater than the citywide percentage of low-income pupils. The percentage of low-income pupils is determined by dividing the school's October 31, 1979 register into the weighted sum of free lunch eligible pupils enrolled in the school and children aged 5 to 17 receiving Aid to Families with Dependent Children (AFDC) payments.

For the 1980-1981 school year, the following formulae were used to determine the citywide low income cutoff percentage and the low income percentage for each New York City public school

1. Citywide Cutoff (C.W.C.)

$$\text{C.W.C.} = \frac{\text{The number of Children Ages 5-17 on AFDC Welfare Rolls (weighted 60\%) plus the number of Public School Pupils receiving Free Lunch (weighted 40\%)}}{\text{Total number of Children on Public School Registers as of October 31, 1979.}} \times 100$$

2. Eligibility of a New York City Public School (P.S.E.)

$$\text{P.S.E.} = \frac{\text{The number of Children in Age Span Appropriate to the School's Attendance Area on AFDC Welfare Rolls (weighted 60\%) plus the number of Pupils in the School receiving Free Lunch (weighted 40\%)}}{\text{Total number of Public School Children registered in the school as of October 31, 1979.}} \times 100$$

A public school is eligible for ESEA Title I services for 1980-1981 if its low-income percentage (P.S.E.) is equal to or greater than the citywide low-income cutoff percentage (C.W.C.) of 45.12%.

ADDRESS

TELEPHONE NUMBER

NO. OF ANNEXES

An annex is an educational space assigned to a school organization but not housed in the main school building. For the SCHOOL PROFILES, only annexes housed in regular school buildings are counted. Annexes housed in portable classrooms, mini-schools or any leased space are not included in the annex data.

YEARS OF CONSTRUCTION, ADDITION AND MODERNIZATION

Dates apply to main building only.

Main building year of construction dates for the various level and district summaries are presented by the number of schools in the summary having construction dates within each of the following intervals:

Before 1900
Between 1900 and 1929
Between 1930 and 1959
1960 and later

TYPE OF CONSTRUCTION

There are four categories of construction for New York City public school buildings:

Fireproof Throughout
Structurally Fireproof
Interior Framing not Fireproof
Mixed (any combination of the above categories)

Main building type of construction data for the various level and district summaries are presented by the number of schools in the summary having construction types within each of the four above categories.

CAPACITY

Capacity is the ideal number of pupils that can be physically accommodated in a school given its educational program. School capacity is computed annually in October based on a survey of the number of instructional rooms and the use made of these rooms. Factors considered in the computation of a school's capacity include the number and type of classes organized, class size requirements for the pupil populations, and special programs and activities. For the SCHOOL PROFILES, the capacity of temporary buildings such as portable classrooms, mini-schools and leased space has not been included with that of the main building and other school building annexes. Capacity is not computed for Special (District 75) Schools or for high school programs other than Academic-Comprehensive or Vocational-Technical high schools.

PERCENT UTILIZATION

Percent Utilization is a measure of the usage of a school building in relation to its rated capacity. Utilization is computed by dividing the October 31, 1980 register into the school capacity as determined by the October 1980 survey. The capacity figure used in the SCHOOL PROFILES excludes the capacity of all temporary buildings in displaying capacity for the schol organization. Pupil registers for individual school organizations include all buildings, however. Therefore, for those schools where the register and capacity data do not involve the same structures, the percent utilization has not been calculated. Reference should be made to the following Board of Education publication for a more detailed discussion of school capacity data:

Utilization of School Buildings
1980-1981 School Year
Office of Student Information Services

School Utilization data for the various level and district summaries are presented by the number of schools in the summary having utilization rates within each of the following intervals:

Less than 80 percent
Between 80 and 99 percent
Between 100 and 119 percent
120 percent and over

PUPIL DATA

REGISTER 10/31/80

Register is the number of pupils enrolled in school on the last school day in October. Register includes all pupils (pre-kindergarten, kindergarten, regular and special education classes) counted on the individual school organization's rollbook in all facilities (main building, annexes, portable classrooms, leased space and other auxiliary structures). For many schools, the October 31 register will represent the largest number of pupils within the school at any given point in time during the school year.

AVERAGE DAILY REGISTER FOR SCHOOL YEAR 1980-1981

Average Daily Register is the sum of the daily registers during the school year divided by the number of days in the school year. For 1980-1981, there were 185 school days in Manhattan, Bronx and Staten Island, and 184 school days in Brooklyn and Queens. Since the enrollment at a school will vary continuously with the admissions and departures of pupils during the year, the average daily register may be more indicative of a school's pupil population than is the October 31 register.

ETHNIC COMPOSITION (BY GRADE)

Ethnic Composition is the racial or ancestral composition of the pupil population registered at a school as of October 31, 1980. The pupil ethnic data are collected for each classroom by teacher observation only. Teachers are instructed to include each pupil in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging. The definitions given below are those used by the U.S. Office of Civil Rights:

> Black, Not of Hispanic Origin: A person having origins in any of the Black racial groups of Africa
>
> American Indian or Alaskan Native: A person having origins in any of the original peoples of North America and who maintains cultural identification through tribal affiliation or community recognition.
>
> Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Pacific Islands or the Indian subcontinent. This area includes, for example, China, Japan, Korea, the Philippine Islands, Samoa, India, Pakistan, Bangladesh and Ceylon.
>
> Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin - regardless of race.
>
> White, Not of Hispanic Origin: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

The pupil ethnic data are displayed by number and percent of pupils across rows for pre-kindergarten, kindergarten, each of the regular grades (1-12), special classes, and total of all grades and classes.

10

ATTENDANCE (PERCENT OF AVERAGE DAILY REGISTER)

Percent Attendance is the mean pupil attendance rate for the 1980-1981 school year. Percent Attendance is calculated by dividing the average daily register into the average daily attendance. Pupil attendance data are collected monthly for each of ten attendance periods in the school year. Each month's aggregate register and aggregate attendance are totaled over the ten periods and divided by the number of school days in the year to yield average daily registers and attendance.

$$\text{Percent Attendance} = \frac{\text{Average Daily Attendance}}{\text{Average Daily Register}} \times 100$$

Pupil Attendance data for the various level and district summaries are presented by the number of schools in the summary having attendance rates within each of the following intervals:

Less than 60 percent
Between 60 and 69 percent
Between 70 and 79 percent
Between 80 and 89 percent
90 percent and over.

PROMOTIONS (PERCENT OF JUNE 1981 REGISTER)

Promotion rates are provided for elementary, intermediate and junior high schools only. Percent Promotions are calculated by dividing the June 26, 1981 register into the number of pupils promoted in June into a higher grade. Mentally handicapped pupils are not graded and do not "advance" by grade level.

$$\text{Percent Promotions} = \frac{\text{Number of Promotions}}{\text{June 26, 1981 Register}} \times 100$$

Pupil Promotion data for the various level and district summaries are presented by the number of schools in the summary having promotion rates within each of the following intervals:

Less than 80 percent
Between 80 and 84 percent
Between 85 and 89 percent
Between 90 and 94 percent
95 percent and over

FREE LUNCH ELIGIBLES (PERCENT OF 10/31/80 REGISTER)

Percent Free Lunch Eligible Pupils is the number of pupils eligible to receive free lunch as of October 31, 1980 divided by the October 31, 1980 register. Under U.S. Department of Agriculture regulations, pupils are eligible for free school lunches due to low family income ($197.00 gross weekly for a family of four) or due to special hardship costs (such as excessive medical expenses) where the family income exceeds the U.S.D.A. income scale.

$$\text{Percent Free Lunch Eligibles} = \frac{\text{Free Lunch Eligible Pupils as of 10/31/80}}{\text{October 31, 1980 Register}} \times 100$$

Free lunch eligibility data for the various level and district summaries are presented by the number of schools in the summary having free lunch eligibility rates within each of the following intervals:

Less than 20 percent
Between 20 and 39 percent
Between 40 and 59 percent
Between 60 and 79 percent
80 percent and over

ADMISSIONS

Percent Admissions is the number of pupils admitted into a school during the 1980-1981 school year divided by the average daily register for that year. Admissions include both pupils transferring in from another New York City public school and pupils being admitted from all other schools.

$$\text{Percent Admissions} = \frac{\text{Number of Pupils Admitted during 1980-1981}}{\text{Average Daily Register}} \times 100$$

Pupil admissions data for the various level and district summaries are presented by the number of schools in the summary having admission rates within each of the following intervals:

Less than 20 percent
Between 20 and 39 percent
Between 40 and 59 percent
Between 60 and 79 percent
80 percent and over

DEPARTURES

Percent Departures is the number of pupils leaving a school during the 1980-1981 school year divided by the average daily register for that year. Departures include pupils transferring out to another New York City public school, as well as pupils transferring to any other school or leaving school entirely. Departures do not include pupils graduating to the next higher level.

$$\text{Percent Departures} = \frac{\text{Number of Pupils Discharged during 1980-1981}}{\text{Average Daily Register}} \times 100$$

Pupil departures data for the various level and district summaries are presented by the number of schools in the summary having departure rates within each of the following intervals:

Less than 20 percent
Between 20 and 39 percent
Between 40 and 59 percent
Between 60 and 79 percent
80 percent and over

NORM AID TO FAMILIES WITH DEPENDENT CHILDREN

Aid to families with dependent children (AFDC) is granted to children deprived of parental care due to death, incapacity or absence, or whose family income is within established financial eligibility guidelines (e.g., the total annual income for a family of four must not exceed $5,712.00).

The Norm AFDC data provided in SCHOOL PROFILES is the number of children of an age appropriate to the grade span of the school whose families live in the attendance zone of the school and receive assistance under the New York City AFDC Program.

READING SCORES

Reading scores are shown for the elementary, intermediate and junior high schools based on the tests given to grades 2 through 9 on April 7, 1981. The examinations used were the California Achievement Test, Form C, prepared by CTB/McGraw Hill. This series of standardized examinations makes possible a comparison of the reading ability of New York City public schools with the competency of students throughout the United States.

Pupil reading scores (and the mathematics scores described below) are given in grade equivalent units. For each pupil, the number of correct answers is converted to a grade equivalent score on the basis of tables developed when the test was standardized on a national sample of students. The ten months of the school year represent tenths of a grade equivalent score. For example, for a third grade test held in April, the norm grade equivalent score is 3.7 because April is the 7th complete month of one year's reading instruction. A third grade pupil who attains a grade equivalent score of 3.7 has equalled the performance, in terms of the number of correct answers, of the average child in the national sample of children on whom the test was standardized. For any large group of pupils tested, there will result a relatively wide range of grade equivalent scores above and below the norm. Statistically, an "average" school should have 50% of its children scoring above grade level and 50% below.

The Reading Tests for all grades are divided into two parts - Vocabulary and Comprehension. The Vocabulary part contains 30 items that are divided into three sections. The first section requires that students identify the same meaning for an underlined work in a phrase. The second section requires that students identify the opposite meaning for an underlined work in a phrase. The third section requires that students determine the meaning of multi-meaning words by using sentence context.

The Comprehension section of the examination contains 40 items based on several reading selections. The test requires that students read a variety of material. Depending on the level of the tests, this material may include biographical sketches, factual accounts, fictional passages, poems, speeches, advertisements, letters, editorials, commercials, or movie reviews. The items measure skills in literal, interpretive, and critical comprehension.

For each grade tested in a school, the following pupil reading data are provided:

> Number of pupils taking the test. This number is generally lower than the pupil register as a certain number of pupils are either absent on test day or are excluded from the test due to English speaking difficulty.
>
> Mean grade equivalent score for Part 1 - Vocabulary. Calculated by dividing the sum of the individual pupil mean grade equivalent scores by the number of pupils tested.

Mean grade equivalent score for Part 2 - Reading Comprehension.

Mean grade equivalent score for total Reading Test.

Percent of pupils tested scoring at or above the norm grade equivalent.

Percent of pupils tested scoring one year or more below norm grade equivalent.

Percent of pupils tested scoring two years or more below norm grade equivalent. (Not applicable for second grade pupils.)

MATH SCORES

Mathematics test data are shown for elementary, intermediate and junior high schools which had grades 4, 5 and 7 pupils in the Spring of 1981.* The examination administered was the Stanford Diagnostic Mathematics Test. This standardized test makes possible a comparison of the math ability of this City's public school pupils with the ability of students throughout the nation. The mathematics examinations for grades 4, 5, and 7 ranged in time between 120 and 130 minutes. Each exam consisted of three subtests.

Part 1, Number System and Numeration, measures understanding of the whole number system and decimal place value, including naming numbers and counting, interpreting numerals, ordering, and rounding. it also includes questions that assess understanding of rational numbers and the properties of the number system and the use of these properties in the operations of addition, subtraction, multiplication, and division.

Part 2, the Computation subtest, is concerned with knowledge of the subtraction, multiplication, and division algorithms and the solution of number sentences.

Part 3, the Applications subtest, measures the ability to select the correct solution model for one-step and two-step problems, to solve two-step and rate problems, and to read and interpret tables and graphs. It also contains questions involving geometric shapes and properties and questions involving measurement, including the metric system.

The following pupil math data are provided:

Number of pupils taking test.

Mean grade equivalent score for Part 1 - Numbers.

Mean grade equivalent score for Part 2 - Computation.

Mean grade equivalent score for Part 3 - Applications.

Mean grade equivalent score for total Mathematics test.

Percent of pupils tested scoring at or above the norm grade equivalent.

Percent of pupils tested scoring one year or more below norm grade equivalent.

Percent of pupils tested scoring two years or more below norm grade equivalent.

---

*Where available, data is also shown for Special Education Schools.

AVERAGE CLASS SIZE

For elementary, intermediate/junior high schools and special education schools, the average class size is the mean number of students in the home rooms or official classes for each grade in the school as of October 31, 1980. Average class size is computed by dividing the number of classes in each grade into the October 31, 1980 register for each grade.

For the academic/comprehensive and vocational/technical high schools, the Division of High Schools has supplied an average class size per school including regular classes, shop subjects, minor music classes and physical education classes.

THE FOLLOWING DATA ARE GIVEN FOR HIGH SCHOOLS ONLY

PERCENT OF STUDENTS READING 2 YEARS BELOW GRADE LEVEL

The percent of students reading two years below grade level is the number of students in each high school whose score in the California Achievement Test in Reading in April 1981 was 2.0 or more below the norm grade equivalent, divided by the number tested, multiplied by 100. New York State Law requires that pupils with special educational needs (PSEN), defined as students two or more years below grade level in reading and/or mathematics, receive additional remedial services.

STUDENTS IN GRADUATING CLASS

The number of high school students in the graduating class in the Fall 1980 and Spring 1981 terms.

GRANTED DIPLOMAS

The number of students awarded high school diplomas in January and June 1981 and the percentage this number is of the number of students in the graduating class. Does not include former pupils granted diplomas after their classes graduated.

PERCENT OF GRADUATES APPLYING TO HIGHER EDUCATION

The percent of the students awarded high school diplomas applying to the type of higher educational institution - four-year college, community college, or other institution - of their first choice. For independent alternative high schools, the statistics are the number of graduates attending four and two year colleges.

AVERAGE INSTRUCTIONAL PERIODS

The average number of subject periods taken each day by each academic/comprehensive and vocational/technical high school student including required music and health education courses. This is sometimes called the Curriculum Index.

STAFF DATA

POSITION TITLES

Annual pedagogic positions by title assigned to each school as reported on the pedagogic payroll. Included are all regular, regular substitute, and full time per diem substitute personnel. Excluded are all personnel on sabbatical, terminal, maternity and all other paid and non-paid leaves of absence.

The positions displayed for all schools other than high schools are:

- Principal
- Assistant Principal (Administration)
- Teacher
- Guidance Counselor
- School Secretary
- Other Professional (including Library Assistant, Laboratory Specialist, and Laboratory Technician)

For high schools, there may be three additional position types: Assistant Principal (Supervision), Machinist Helper, and Assistant Stockman.

Position and salary data are provided for each title by tax levy (City) and reimbursable (State and Federal) funding, and total of both funding sources. Average annual salaries are calculated by dividing the total number of positions for each title into the respective total annual salary dollars. • All salary information represents totals extracted from the computer payroll files for the school year 1980-1981.

Pupil/Staff Ratio is calculated for each title by dividing the total number of annual positions for the title into the average daily register. Staff Cost per Pupil is calculated for each title by dividing the average daily register into the total annual salary dollars for each title.

All cost data in the SCHOOL PROFILES are for salaries only. Fringe benefit costs, such as City expenditures for health and welfare, social security and pension plans, are not included but are estimated to approximate 36% of pedagogic salaries.

Payroll data do not always provide an exact picture of the number of positions serving in a school. Some personnel charged to one's payroll may actually be assigned to another school or to a district office. Payroll data also do not reflect the assignment status of some acting supervisors. A school in which an assistant principal is serving as an acting principal may be shown as having no principal. Most acting supervisors, however, are paid out of their assignment position payroll line and their status will be shown correctly in the SCHOOL PROFILES.

HOURLY TITLES

Personnel paid on an hourly basis and assigned to schools as reported on the hourly employees payrolls. The hourly positions displayed for all schools are:

-Instructional Paraprofessional (including Teacher Aide, Educational Assistant, Educational Associate, and Auxiliary Trainer)
-Security Guard (Including Student Service Officer)
-Other Hourly (including School Aide, School Lunch Helper, Parent Program Assistant, Family Worker, Family Assistant, and Family Associate)

Hours and annual wages data are provided for each hourly title by tax levy (City) and reimbursable (State and Federal) funding, and total of both funding sources. Average hourly rates are calculated by dividing the total number of hours for each title into the respective total hourly dollars. All hourly staff and salary data are extracted from the computer hourly payroll files for the 1980-1981 school year.

Pupil/Staff Ratio is calculated for each hourly title by dividing the total number of hours for the title into the average daily register. Hourly title cost per pupil is computed by dividing the average daily register into the total hourly dollars for each title.

All hourly cost data provide in the SCHOOL PROFILES are for salaries only. Fringe benefits costs are not included.

STAFF COST PER PUPIL

The total annual pedagogic position and school hourly title salary dollars (excluding fringe benefits) divided by the average daily register.

Total school staff cost per pupil data for the various level and district summaries are presented by the number of schools in the summary having total per pupil staff costs within each of the following intervals:

Less than $1,000 per pupil
Between #1,000 and $1,299 per pupil
Between $1,300 and $1,599 per pupil
Between $1,600 and $1,899 per pupil
$1,900 per pupil and over

PUPIL/TEACHER RATIO

The Pupil/Teacher Ratio data for the various level and district summaries are presented by the number of schools in the summary having pupil/teacher ratios within each of the following intervals:

Less than 15 pupils per teacher
Between 15 and 17.9 pupils per teacher
Between 18 and 20.9 pupils per teacher
Between 21 and 23.9 pupils per teacher
24 pupils per teacher and over

PERCENT OF TEACHERS WITH 5 OR MORE YEARS EXPERIENCE

The percent of regular and regular substitute teachers assigned to a school as of the June 1981 payroll having five or more years of total teaching experience (in either the New York City Public schools or any other school.)

Teacher experience rate data for the various level and district summaries are presented by the number of schools in the summary having percentages of teachers with 5 or more years experience within each of the following intervals:

Less than 50 percent
Between 50 and 69.9 percent
Between 70 and 79.9 percent
Between 80 and 89.9 percent
90 percent and over

REGULAR TEACHERS ON SALARY SCHEDULE

The number and percent of regular and regular substitute teachers assigned to a school as of the June 1981 payroll who are paid on the following salary schedule according to their educational background.

Schedule C-1 - Salary rates paid to teachers who have less than thirty semester hours of approved study beyond the baccalaureate degree. For the 1980-1981 school year, the C-1 salary schedule ranged from $10,981 to $19,964 in sixteen semi-annual steps. In addition, C-1 teachers meeting certain requirements received a promotional differential of $1,458.

Schedule C-2 - Salary rates paid to teachers who have completed thirty semester hours of approved study beyond the baccalaureate degree, or who hold an approved master's degree issued by a recognized college or university. For the 1980-1981 school year, the C-2 salary schedule ranged from $11,521 to $20,504 in sixteen semi-annual steps. In addition, C-2 teachers meeting certain requirements received an intermediate differential of $999 and/or a promotional differential of $1,458.

Schedule C-6 - Salary rates paid to teachers who hold an approved doctorate issued by a recognized college or university, or who hold an approved master's degree and in addition have completed thirty semester hours of approved study beyond the baccalaureate degree, or who have completed sixty semester hours of approved study beyond the baccalaureate degree. For the 1980-1981 school year, the C-6 salary schedule ranged from $13,519 to $22,502 in sixteen semi-annual steps. In addition, C-6 teachers meeting certain requirements received a promotional differential of $1,458.

In 1980-1981, teachers with ten years service were given an additional longevity increment of $1,350. Teachers with fifteen years service received $2,700.
